Halspan – What We Do

- Produce & Test door blanks / cores for *fire, smoke, durability & acoustics* to **international standards**
- Provide **full doorset componentry** to fabricators to facilitate **compliant doorset** manufacture

Regulatory Standard	Geographical Coverage
BS 476 pt 22	UK, parts of the Gulf & India
EN 1634 pt 1	Europe, UK parts of Gulf & SE Asia
UL 10C	USA, UAE, KSA, Qatar, Kuwait, Bahrain

Worldwide Presence

 Halspan office locations

68

Halspan Verified & Halspan Tracker

Halspan Verified

Halspan Verified offers a clear pathway for specifiers and clients to confidently navigate necessary fire door compliance needs and responsibilities.

It provides peace of mind by ensuring that every component of the doorset originates from a single, trusted source.

By defragmenting the supply chain, Halspan Verified mitigates risk and ensures full compliance and component compatibility — delivering the highest possible standard of fire door performance.

Halspan Tracker

Halspan Verified – ‘Why?’

Halspan Verified - built on sound, ethical foundations post **Grenfell**

- Dame Judith Hackitt - *Building a Safer Future*
 - ‘Need for clear **regulatory standards**’
 - ‘Need for **education** at all levels of industry’
 - ‘Need for industry to take **accountability** for **compliance**’
 - "Call for **de-fragmentation** of the **supply chain** to **improve quality** of *products, fabrication, installation* and *maintenance over service life.*"

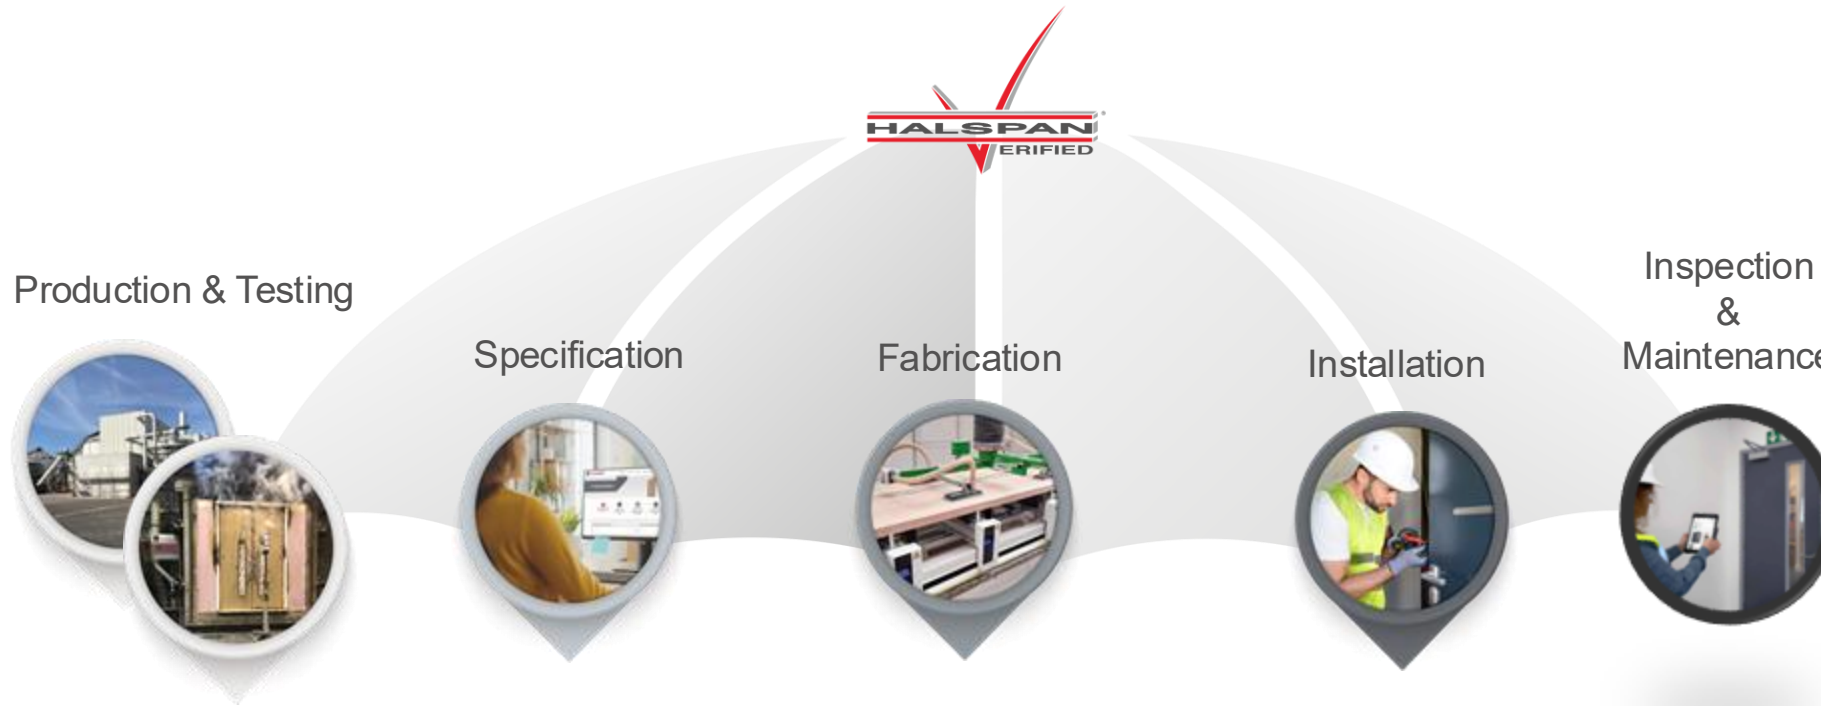

The Golden Thread

Halspan Verified – ‘How does it work’

Halspan Verified – ‘How does it work’

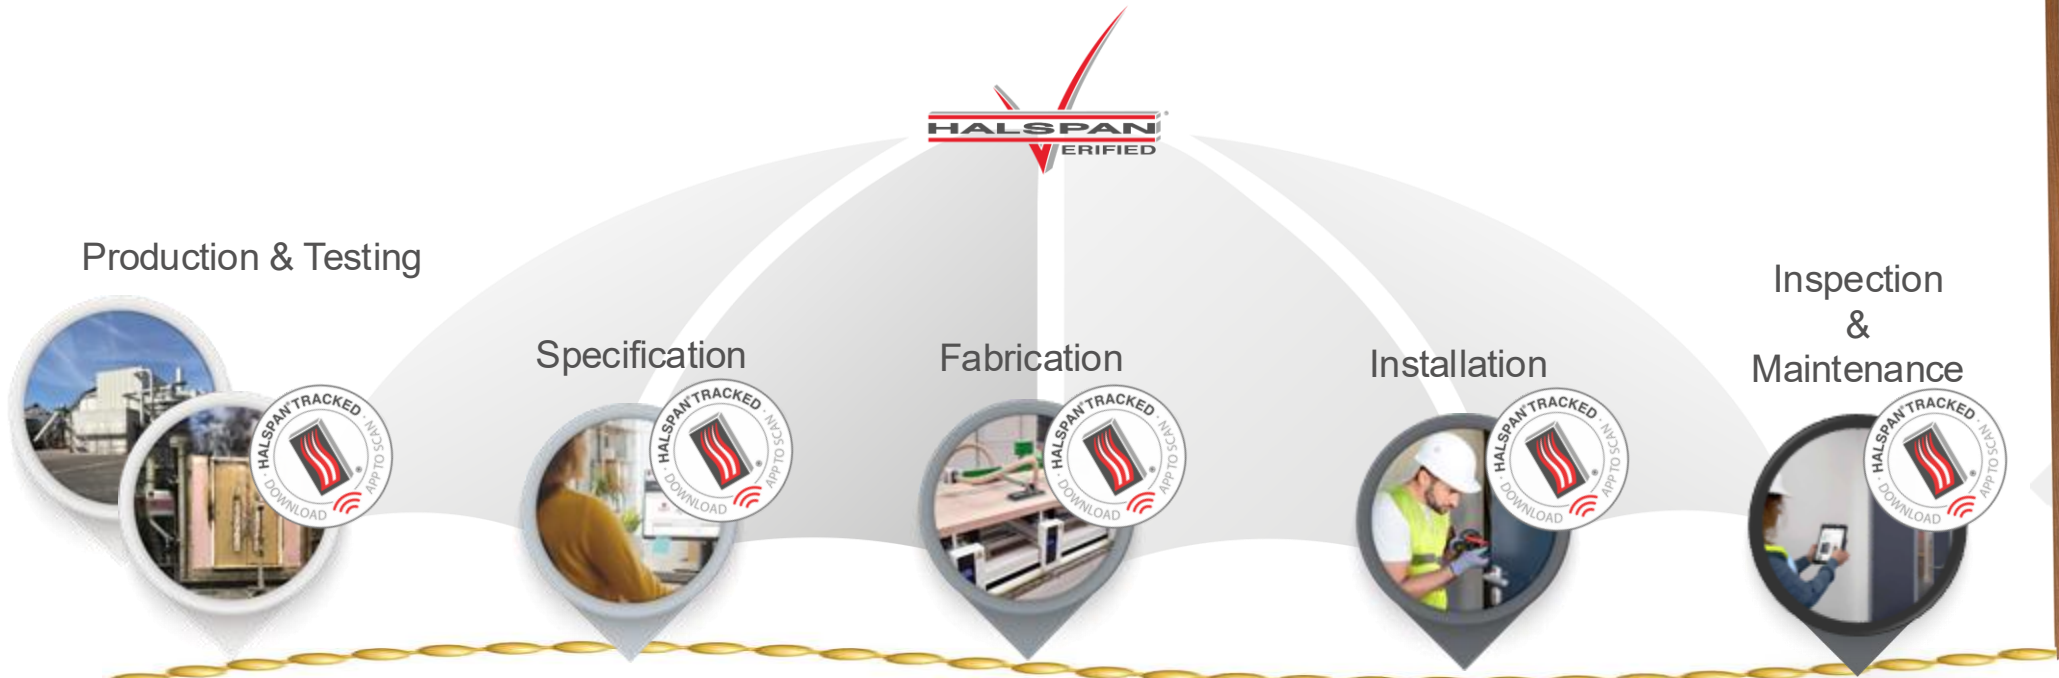

Halspan Verified = The Golden Thread

“Call for de-fragmentation of the supply chain to improve quality of products, fabrication, installation and maintenance over service life”

Halspan Verified – ‘How does it work’

Halspan Verified = The Golden Thread

“Call for de-fragmentation of the supply chain to improve quality of products, fabrication, installation and maintenance over service life”

Halspan – What we do to make it work

- Put simply, we offer products which protect lives and property by:
 - Research & Development
 - Testing
 - Certification
 - Education

Focus on.....Testing

- Continuous development of our doorset technology means testing our products for different performance criteria, including:

- Fire resistance
- Smoke leakage
- Sound reduction (acoustic performance)
- Security
- Durability

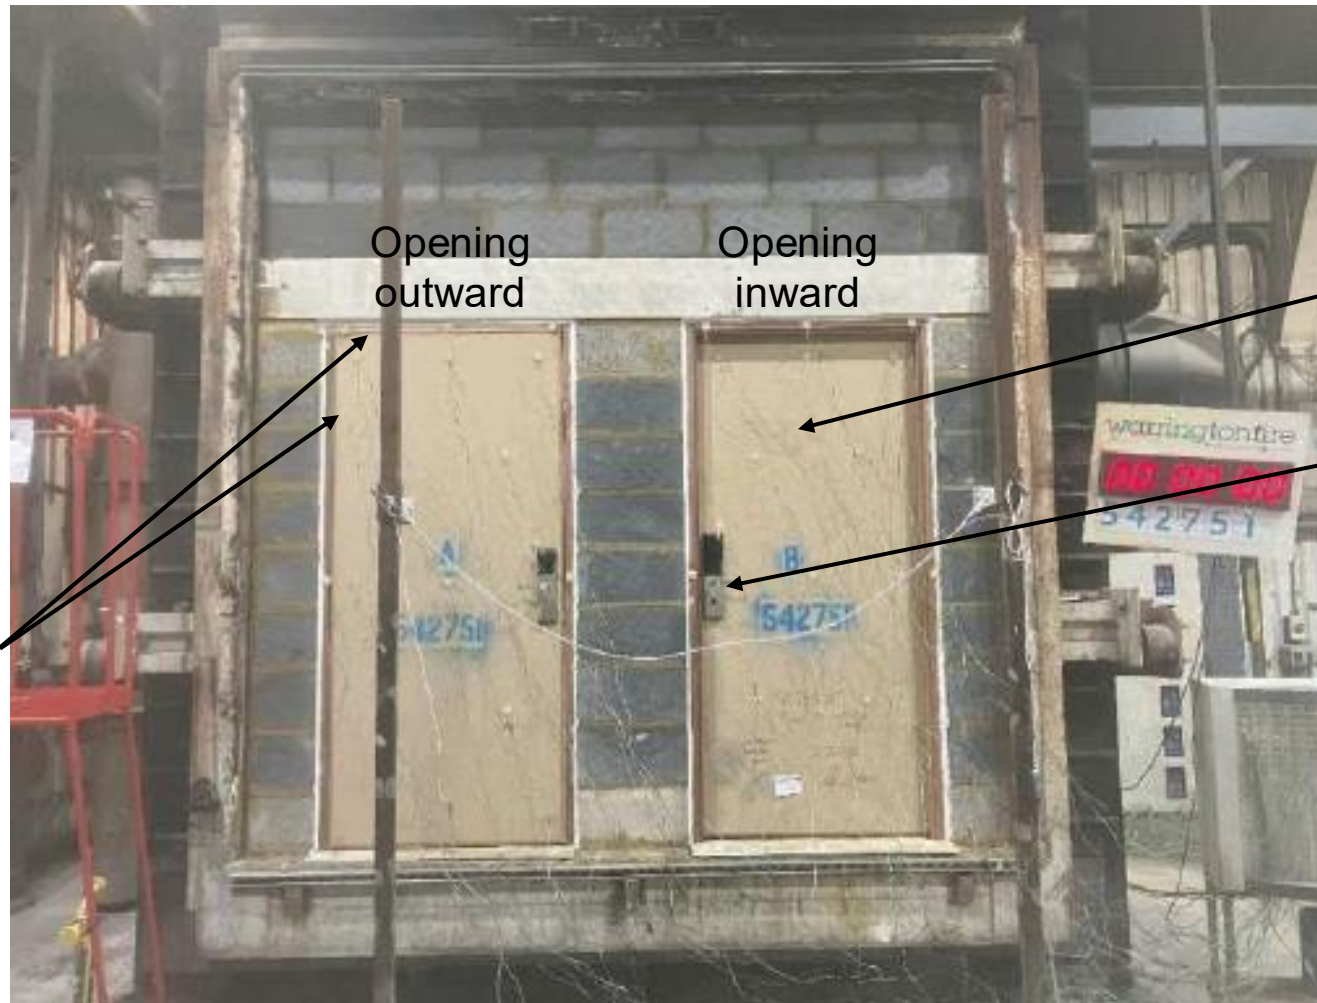

Focus on... Fire Resistance Testing

In our 26 year history, Halspan has carried out over 800 fire resistance tests to BS, EN, UL and ISO standards.

It is our pleasure to share one of these tests with you today.
